EAOS ORCHID SHOW 2006

The show is now history ! I hope everyone considers it a success.

The success belongs to all the members who put in their time and hard work.

I particularly want to thank all the committee heads for doing what they did with no prodding from me. They all knew better than I, what to do and how to do it.

The cleanup committee was great. The man from the Park District who was on duty said we did a better job than their janitorial employees. The members who were there to help set up were super. Three of them were there before 8 am.

Obviously, I was a novice at putting on an orchid show and without some steering in the right direction, who knows? For this I must give credit and thanks to Michelle Glembocki. She kept me on track.

I spoke to all the vendors and they all were pleased and satisfied with the sales.

When all is said and done it was a lot of work but also a lot of fun. We got to know many people better than is possible just by attending meetings.

Marylou Evans

Minutes

Englewood Area Orchid Society
Meeting: 3/6/06

Meeting called to order at 7PM by
President Mickey Carnell

Minutes and Treasurer's report were
approved by the members.

Old Business:

Orchid Show will be on March 17th and 18th at the Englewood Sports Complex. Marylou Evans, Chairperson, needs members to help with the setup. Matt Richards needs 2 more people to man the AOS booth and the cultural and education table. Anna Sibille, Welcoming Chair, needs additional people to welcome and keep a headcount at the event. Jack Schemm is head of the cleanup committee. Pam Bombardieri will head the Membership Committee. Need to bring plants to Pam on Wednesday before the show between 11am and 3pm.

New business:

The 2006 directories are ready and you can pick one up at the next meeting. Guests: Linda Gellweilz, Jan Wilhelm and Elaine & Edward Surette.

New Members: Louise Brady and Peg Smith.

Bill Fender of Fender's Flora was the featured speaker. He spoke on repotting, fertilizing, watering and dividing orchids. Use Cinnamon as a fungicide when repotting plants. Black tips on leaves usually means the plant needs calcium.

The plant table was reviewed by Ted Kellogg and Bill Fender. Katherine Varney's plant was the speaker and members choice.

Respectfully Submitted,

Roger Perrault
Recording Secretary

Treasurer's Report
